

1. Integrated Management System Policy

INBUL Sp. z o.o. company specializes in production, mechanical processing and assembling steel structures, pressure devices, equipment and installations that constitute vessels' equipment – all above mentioned cases require high quality machining, assembly and welding work.

We guarantee our Customers top quality of the delivered and installed devices and systems and at the same time ensuring the highest OHS and environmental standards. Considering Company's sustainable development and the corporate social responsibility our mission is being realised by means of:

- strict supervision over the implemented and applied technologies of mechanical processing, welding and anticorrosion protection in accordance with all requirements
- recruitment and training of competent staff, ensuring safe and hygienic working conditions and observing workers' rights in accordance with the Universal Declaration of Human Rights
- assuring adequate training and raising employees' awareness within the domain of quality, OHS, FPC and environmental protection provisions.
- encouraging the employees to participate in HSE Management System and arranging meetings with them
- ensuring and maintaining proper facility
- preventing injury, diseases, elimination of threats minimizing occupational risk, application of appropriate safeguards
- preventing environmental pollution and limiting the negative impact on natural environment

- observing binding Polish and European legal regulations and other requirements
- continuous monitoring and improvement of the Integrated Management System

INBUL Sp. z o.o. Integrated Management System has been developed and implemented basing on the following major standards:

- ISO 9001 - Quality Management Systems
- ISO 14001 - Environmental Management Systems
- ISO 45001 - Occupational Health and Safety Management Systems
- ISO 3834-2 - Quality requirements for fusion welding of metallic materials
- EN 1090-1-2 - Factory Production Control (FPC) – execution of steel structures

In addition, quality system in NDT and DT Laboratory according to ISO 17025 has been implemented at INBUL Sp. z o.o.

Bearing in mind the Customer's requirements, employees' and natural environment safety, INBUL Sp. z o.o. Chairman of the Board obliges all Company's employees to strictly comply with all the requirements of the Integrated Management System and to engage in continuous improvement and development of the Integrated Management System.

Sierakowice, Migi 09.05.2023
